MONEY RATE EASED OFF

This Had Effect of Causing a Moderate Recovery, Which Halted at About Tuesday Night's Level-Close Was Rather Heavy.

Was Rather Heavy.

(By Associated Press.)

NEW YORK, July 1.—The newly awaktened hope on the part of the commission brokers of a revival of speculation, which prompted the exclaine governors yesterday to dismiss hie resolution of members in favor of a holiday on Friday, received a set-back to-day. All the anifination was gone out if the market, and the apathetic conditions of last week seemed to be renewed in full force, Yesterday's stiffening of the loan rate to 10 per cent, served to irdimidate the trading element. The rate did not go above 5 per cent, to-day, aid in the late dealings eased off to now interest the principal demaid had been satisfied. The course of the call money market, however, was fell to be due to the moderation displayed by stock market barrowers, and the laft easing of the rate had no other effect than a moderate recovery from the earlied depression in the market due to the excerning of shorts by professional traders. The recovery halted at about last night's level and the closing was rather heavy. Yesterday's sudden advance of over two points in United States Steeel, preferred, which was coincident with the return to the street after a long absence of a noted operator, conspicuous in the foataution beried of the United States Steel securities, had aroused pone hope that a renewal buill campaign was to be undertaken in those securities under syndicate aupices, but the inertia of the preferred took in the slighborhood of \$2, which is the subscription price offered to empoyes, strengtened the surmise that thit price level was the objective of yesterday's moverient. The renewed strength in the cotton market disappointed the lopes that \$4\frac{1}{2}\$ violent speculation and the firmpess of the orn market was also a detriment to stock, although the sharp reaction in wheat was favorably regarded. Atcluson, Southern Pacific and Union Pacific were carried a point under last night a one time. The May net earnings repried by Linich Valley and New York, Otario and Western confirmed the bellef in th

WNORK, July 1—The opening on the Echance was smewhat irregular, but the whole the mariet showed considerable thind complain that very little consequence tiched to the cheef in the London market, here was not much commission houses there were a five orders at the opening certainly more tian in the recent past.

DISPOSITION TO SWITCH:

There seemed to be some disposition among
the processionals to switch the leading speculation from the anistence assume to the Graugestocks, it was argued that the monthly careings in the former had all been published, while
the ereq reports would inspe an active market

HE FRIST HOUR:

The riarket became somethat inactive after opening transactions, and in the first hour weed a much less decided tendency than at r time since the raily began on Saturday, a volume of business was maller, and there med to be a little stock by sale for people rating on the bull side in the beginning of

HOCKING VALLEY:
Hocking Valley sold off verreasily and probably confirmed by its decline he street belief that the new oversilp hasbeen erranged. There is evidently nothing let but minority stock; and it is now nobedy's brings to sup-

BTEEL SHOWED STRENGTH: The Steel issues showed stretch and the street was frankly of the couldn't that the change in the executive was a but argument.

COLORADO FUEL AND IRON; The break in Colerado Fuel and ton was due to the rumor that the company woul issue new bonds. It is generally accepted that some financing will be done, but there is nothing at the present upon which to buil the seek.

THE SECOND HOUR: The market in the ascood hour we mainly affected by the rather heavy selling or London and some change of nithinde amous has now active traders. Commission house has we light, and it did not appear that any tensiderable public account had been opened in the past two days' raily.

IN THE LAST HOUR:

The closing prices as a rule showed smil net changes, except Colorado Fuel and Iron and Hocking Valley issues, which declined julic severely, Money to-day did not reach Storday's high rate, and in the last hour was key.

NEW YORK, July 1.—4/The stutation in dry goods shows little improvement as far as buying is concerned. Seliers are advancing prices every day, and the effect of the curtailment poly is likely to be felt in the near future to a more appreciable degree than it has to date. Everything tends toward even higher prices, but buyers are operating as conservatively as possible in order to avoid bidding the market up against themselves.

"Yellowstone National Park"

Is the name of a convenient, 112 page, flexible covered, fully illustrated book describing Yellowstone Park. The park is treated from all points of view and the book, while not primarily a guide book, answers excellently for one, as the Geysers, Canons, Hot Springs, Wild Animals, etc., are all described.

Send Charles S. Fee, of the Northern Pacific, St. Paul, Minn., twenty-five cents and he will send you a copy. WHEN IN NEW YORK
